YOUNG ENTERPRISE SIMULATION (YES)

WHO WE ARE

8TI is an independent agency that specialising in project consulting and delivery, partnership arrangements.

We're an international multi-lingual team, with colleagues based throughout Europe to help in projects we develop and support, achieving environmental international ambitions.

We coordinate training courses across a variety of industries - allowing students to learn from industry experts in a new environment.

We guarantee support in developing and strengthening professional skills in rewarding host companies in various countries throughout the EU.

ABOUT US

UNICA is a next-generation, non-profit company dedicated to promoting the creation of real value in the labor market ecosystem.

UNICA is a phase of an evolutionary process started in 2009 by a group of graduates from the Faculty of Law of the University of Salento in Italy having extensive experience in the implementation of national and European projects.

UNICA has always believed in the centrality of the people for whom it designs and proposes personal and professional growth paths.

UNICA 's managerial training, technical training, linguistic or IT training courses all have an important common starting point: being paths in a broader process of training and continuous growth that extends along the entire user's lifetime.

 Improve youth workers' knowledge of the social economy.

 Promote the empowerment of young people to activate social enterprises and develop social innovation practices.

 Develop the level of knowledge and key skills in the field of social entrepreneurship and employability based on intercultural dialogue, cultural exchange and diversity, in order to be adaptable on the European labor market.
